Texochem Industries

TECHNICAL DATASHEET

Texsol MB

General

Texsol MB is a polymeric product used as textile auxiliary / finishing chemical for providing body and heaviness to the fabric.

Typical Properties

Appearance	Milky white emulsion
% Solids	40 ± 1%
pH	4.0 – 7.0
Solubility	Soluble in warm water
Compatibility	Compatible with all textile finishing agents

Advantages

- Increases grain effect on fabric
- Provides durable finish on textiles of all kinds
- Gives maximum stiffness to the fabric
- Water based and eco-friendly product

Application

5 to 50 g/l of Texsol MB is recommended. However, the mentioned recommendation may change depending upon the quality of the fabric & type of finish desired.

Our recommendations, if any, for use of this product are based on tests believed to be reliable. The greatest care is exercised in the selection of our materials and in our manufacturing operations. However, we make no recommendation to use this product in any manner which conflicts with existing laws and/or patents and we make no warranties, express or implied, regarding this product or its use, including merchantability and fitness for particular purpose. The manufacturer is not liable for any consequential, incidental, or special damages of any kind. We encourage customers to perform their own tests to confirm performance of the product.
